

Medical treatment...

The first day at the camp contains a medical treatment. A check, especially at the dentist, is not always a pleasure but necessary and important for the health of all the kids.

A girl from Montenegro is waiting for her medical treatment. She has problems with her eyes. After a short checkup the doctor knows the reason for her pain and has quickly found a solution for this problem and gives her some good advice. To heal her an ointment for her left eye helps keeping the eye wet. After the medical visit she feels happy and the doctor is ready for the next patient. How can he help the next little client?

We all know the feeling we have while sitting on a chair of the dentist. It's not very nice, is it?

But we have to say that these kids are very brave. Patiently they're waiting for their treatment even if it's not their favorite activity. But one thing is obvious: A lot of these kids benefit from the dentist's and they will have pleasure with their refreshed and healthy teeth. We're looking forward to seeing their smile!

At the end of each procedure every child is in a good mood and happy that the whole procedure didn't hurt too much and finally is over.

So all of them are ready for new adventures...

Waiting in front of the medical room..

At the eye doctor during the control

Puuhhh... Medina's teeth seem to be in good condition.

This is Tedi (14)

*In every issue a child of the swisscor camp tells us about the daily life in his own country and about his impression of the camp. Today, Tedi Hala from Albania says:
"Mir dita!" (Hello):*

Do you like the camp?
I like it very much so far. Because I just arrived I haven't seen much yet.

What do you know about Switzerland?
Waterfalls, the Alps and I know that in the people in Switzerland can speak four languages. And I heard that you're a neutral country.

What makes you happy?
I like it very much being with my friends and having a good time with them.

Do you have a wish?
I don't have feeling in my right leg and on top of that I have to make an operation on my right foot. I hope it will end well.

Do you want to say hello to anybody?
I want to say hello to my aunt in Lucerne.

Dinner Ravioli
Salad

„Swiss Miniature“- Game

All children love Swiss Military chocolate

There are many different specialties from Switzerland. For example the „Emmentaler“-Cheese and Rivella.

The afternoon contained a funny "Swiss Miniature" - Game, organised by some soldiers. In different locations, the children could learn something about Switzerland. There was a lot to see: For example a big 3-dimensional map of Switzerland where children could touch the mountains on the map.

Wow! Such a small country and four official languages: German, French, Italian and Rhaeto-Romanic.

A further theme were the Swiss languages. With the help of a little puzzle they could try creating words in different languages: Italian, German, French or Rhaeto-Romanic. The children could also taste some typical Swiss food like the "Rivella"-Drink, apple juice, cheese, and many others. In one room the children could watch some pictures of Switzerland and finally a person gave some declarations to these photos.
