# The opening party

*For a camp like this, a big opening party is very important! The children prepared a little event to showing their participation. Even the soldiers prepared some actions. All participants of the party were under big tension. So let's start...*

## Primo Piatti

In the evening, all people came together on the place in front of the Kaserne Glaubenberg. A lot of the children were playing with people standing around. Some of them were talking to their guides.

*These soap bubbles are really big!*

The weather was fine when Clown "Gugu" started some funny actions and made the audience laughing.

**When the sun** started to shine, the folks were having much pleasure. After a while the soldiers were showing some games to the children. A girl shouts to a passing soldier: „Ooh, Shakespeare! B y e b y e ! “

Then the audience went into the Kaserne where another event was starting. Our well-known Clown "Gugu" said welcome to all children. He sang some songs in different languages: whistling, dudu – Language, dada-language, mimi and momo-language.

At the end of his performance he talked to a bird which was eating some bubbles.

## Secondo Piatti

After the dinner, clown "Gugu" started his second part of performance. As for a surprise a big package was taken to this special event. A lot of funny things were lying in this package When everybody was silent, he took some pieces of a puzzle and put them together to a big red heart. The heart is the symbol of the Swisscor-Camp.

*A heart for children*

Furthermore he had some rhythm-instruments. With these tools and the assistance of a lot of children he prepared a drum session. He played with the kids and all the available instruments he had in there. The main attraction still to come: His friend Kaspar! Kaspar wore a military uniform and a funny red cap.

He had some problems with his red nose, which could not be kept on his nose. Otherwise he was able to play the violin in an excellent style. So they began to perform a little concert. The audience was clapping its hands. They were all very amused! Last but not least, all people sang a song for Mile, a boy who had his birthday this unique day.

## A big folk music party

Now, a chorus of soldiers started to sing some famous Swiss folk songs. There were songs like „Hemmige“, „Es Buurebüebli“, „Luegid vo Bärig und Tal“, „Kiosk“, etc. After this presentation, which has been awarded by a big applause.
